

GERMAN PRESS DISSATISFIED.

Lukacs in its Welcome to New Cabinet Members.

Strong Plea to Let "Kultur" Elect its Servants.

Considerable Criticism of Dr. Helfferich.

(BY ATLANTIC CABLE AND A. P.) BERLIN, Aug. 7 (Via London).—Germany's press is decidedly lukewarm today in its welcome to the new members of the cabinet.

It cannot be denied that the events occurring in our internal politics have historic dimensions, as compared with the ordinary achievements of the Reichstag.

The present reorganization of the government personnel, which is of little moment as regards the internal development of the Reich, shows Chancellor Michaelis for the present.

Another source. The total answer says: "If parliamentarism has assumed its present form, we are not in a position to welcome the new cabinet members."

The National Liberal Bureau. In its comment, says: "In the result, we are not permitted to contemplate that which we and, with us, many others have looked forward to."

Official circles point out that the selection of new men has been solely prompted by their personal qualities, and that the roster of the new cabinet has been chosen in every direction to obtain the best men available.

The cabinet. The cabinet is a new method in this system of ministerial appointments. The new government does not even suggest a definite program and the only positive guarantee the newcomers offer is a pledge to carry out the terms of the imperial message for electoral reform.

The cabinet. The cabinet is a new method in this system of ministerial appointments. The new government does not even suggest a definite program and the only positive guarantee the newcomers offer is a pledge to carry out the terms of the imperial message for electoral reform.

VOSSISCHE ZEITUNG. "We cannot overlook the fact," says the newspaper, "that in Dr. Helfferich, not only has a member of the old system been incorporated in the new government, which was to foreshadow a change in method, but above all, one of the strongest supporters of the old system."

ONE GERMAN U-BOAT SINKS NINETEEN SHIPS.

(BY A. P. DAY WIRE.)

ATLANTIC PORT, Aug. 7.—A German submarine, during a three week period ending July 13, sank nineteen vessels aggregating 94,000 tons, and was still in condition to remain longer away from its base, according to a report brought here today by Harold Hanson of Detroit, a member of the staff of the U.S. Navy.

NO AUTOMATONS FOR PERSHING

Army of Thinking Men is Wanted by General.

Utmost Energy to Insure Success Requisite.

What Commander Expects of Our Conscripts.

(BY ATLANTIC CABLE AND A. P.) PARIS, Aug. 7.—Maj.-Gen. Pershing, commander of the American expedition in France, told the Associated Press today what he expected of America's conscript army.

General said: "Our men must be in good physical condition, they must be clean and healthy, capable of meeting the trying conditions of modern warfare. The men must learn to obey orders promptly, implicitly and willingly, but not necessarily automatically."

"I object to the word 'automatic' because we do not want a machine-made organization but an army of thinking men. Men with individuality, men capable of brilliant individual action in a crisis. He added: "We want our men trained the same way."

The general was optimistic and confident that America's army would give an excellent account of itself and would come up to the expectations of the other Entente Allies despite the tremendous amount of work necessary before the American participation in trench warfare was possible.

AVIATION ARRANGEMENT. (BY ATLANTIC CABLE AND A. P.) PARIS, Aug. 7.—It was announced today that American aviators had been picked to enter British, French and Italian aviation schools in time to complete their training at the earliest possible moment.

THE PROBLEM of sending the most efficient aviators has been solved in part by the purchase of all available planes in time with the Entente Allies, thus permitting the Americans to begin their aerial operations much sooner than otherwise would have been possible.

ARM OF THE LAW. ANTI-DRAFT MEN IN OKLAHOMA CAUGHT. GOVERNMENT TO ASK THAT TWO ORGANIZERS BE SHOT.

Officers of Three Counties Settle Down to Tireless Search of Hills for Objectors. After Rounding Up More than Fifty Such, Governor Issues Proclamation.

(BY A. P. NIGHT WIRE.) OKLAHOMA CITY (OKLA.) Aug. 7.—With the arrest today of more than fifty draft resisters, including two chief agitators of the "Working Class Union," officers in Hughes, Seminole and Pontotoc counties settled down to a tireless search of the hills for objectors, who, starved out, slowly are giving up.

As conditions gradually returned to normal, chief attention turned to night to the preliminary hearings of 200 of the objectors before United States Commissioner R. N. McMillen, scheduled to open at McAlester tomorrow.

Roy Crane of Oak Grove and John Barnhart of Wewoka, organizers of the "Working Class Union," will be two of those for whom the government will ask the death penalty, according to statements of attorneys of the District Attorney's office.

In the bag of fifty prisoners taken today were "Doc" Caley and a man named Frank, who are believed to be the uprisings. Forty-eight men were taken to the State prison at McAlester from Holdenville today, and another possession, continued to send in others overcome with fear and hunger in the hills.

Gov. Williams today proclaimed his pride in the mass of loyal people in the infested districts. "To let the citizens of the community themselves put down the trouble was unamiable proof as a whole the people were absolutely loyal to the government and thoroughly amenable to law and order."

COTTON, SUGAR, WOOD IN EXPORT CONTROL.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 7.—Three important commodities—cotton, lumber and sugar—probably will be put under export control soon by President Wilson. The Export Council, it is understood, already has recommended that they be added to the list of goods for whose shipment out of the country license is required.

Officials who comprise the Export Council are particularly desirous of controlling the commodities, of which Germany is in desperate need, and to the European neutral countries in large quantities within the last three years.

Reports that the United States would embargo coal shipments to Germany were denied officially today.

ATLANTIC PORT, Aug. 7.—A German submarine, during a three week period ending July 13, sank nineteen vessels aggregating 94,000 tons, and was still in condition to remain longer away from its base, according to a report brought here today by Harold Hanson of Detroit, a member of the staff of the U.S. Navy.

FRENCH REPORT OF OPERATIONS.

(BY ATLANTIC CABLE AND A. P.) PARIS, Aug. 7.—The War Office issued the following official statement tonight:

"In Belgium the cannons were rather violent during the night. On the right bank of the Meuse (Verdun region) the enemy directed an attack against our positions in the Caurettes wood. An enemy detachment, which had succeeded in gaining a foothold in an element of our first line was thrown back immediately by a counter-attack. Intermittent cannonading has occurred on the rest of the front. It was especially spirited to the west of Cerny and in the direction of Hurlers."

"Belgium: Some artillery action and grenade fighting took place in the direction of Dinant."

"Army of the East, August 6: Moderate artillery activity has occurred on the whole of the front. Our artillery carried out a destructive fire on the enemy batteries in the Cerna Bend. British aviators bombed the barracks at Limanowa."

Near the Front.

ISSUE GAS MASKS TO OUR SOLDIERS.

AMERICAN TROOPS' TRAINING IS BECOMING MOST TENSE.

Men to be Put Through Experiments with Deadly Vapors, Several Times Stronger than Ever Encountered Upon the Battlefield—Great Caution Necessary.

(BY ATLANTIC CABLE AND A. P.) AMERICAN TRAINING CAMP IN FRANCE, Aug. 6.—The intense use of gas masks to the American soldiers has brought them a little nearer to the realization of the proximity to real warfare. The men are looking forward to the gas experiments with the greatest possible interest as giving a touch of adventure to their training.

The so-called "gas house" is completed. The men will be put through a mixture of a deadly vapor several times stronger than will ever be encountered upon the field of battle.

Some German prisoners have claimed that in their training they have endured periods of from five to ten minutes in a gas fifty times as strong as possibly could be maintained in an open-air attack.

The men are put through these intense mist-like conditions to accustom them to the use of their equipment they cannot be hurt by breathing the gas. The gas is contained in the front-line trenches.

IMPORTANT TRAINING. It is a most important branch of the modern training of a soldier that he should be convinced that there are many methods of effectively dealing with the deadliest terrors of modern warfare; that gas, which is so deadly to the individual soldier, is not so deadly to the unit as a whole.

In training the Americans regarding gas the greatest weight is to be laid on demonstrating to each man the value of his protective appliances and the necessity of being instructed in their proper use. He will be made to realize, however, that only by skillful and rapid adjustment of the mask can protection be assured and that it shall be a daily task with him to see that his appliance is in good condition.

The fit must be assured, for otherwise the gas penetrates through every small hole and attains the soldier's mouth so that in a short time the man is put out of action.

LECTURES ON GAS. Lectures on gas are being arranged, first for the officers, then for the men, for in gas training officers have to go through identical drills and experience. Ten seconds will be the outside limit allowed for the adjustment of helmets after the gas alarm has been sounded.

The increasing use of gas shells, even from the longest-range guns, makes the carrying of masks far back of the line an imperative military necessity. The first traces of gas poisoning are a hot mouth and irritation of the throat. Despite proof that the Allies have so often produced the contrary and the terrible deaths Allied soldiers died when this hideous mode of warfare was first sprung upon us.

Suspecting that the high command of the German army, private soldiers and Germans say the gas is so-called "mustard gas" and is not poisonous. The substances, they assert, exert stupefying action and after long exposure have an asphyxiating effect. Under their influence vision is affected. A man subjected to it is forced to close his eyes in a few seconds and can observe nothing. Germans naively admit, however, that "it is impossible to remain in these gas without protection."

The exact nature of the composition of practically all of the German gases is known to the Allies. The Americans are obtaining the full results and benefits of all this laborious and dangerous work.

VILLA FOLLOWERS NEARING OJINAGA.

(BY A. P. NIGHT WIRE.) PRESIDENT (TEX.) Aug. 7.—A band of Villa followers was reported to have been seen within a short distance of Ojinaga, opposite here, early today. The government garrison in Ojinaga started preparations to defend the town against an attack. The band is believed to be near the border to obtain ammunition for Villa from the American side.

FIVE JAPS COMING TO STUDY CONDITIONS.

(BY PACIFIC CABLE AND A. P.) TOKIO, Aug. 7.—Members of the House of Representatives met and decided to send five of their members to the United States to study conditions. They will start about September 1 and return in December. The delegation will represent all parties.

Keep It Handy. Immediate relief is necessary in attacks of diarrhoea. Chamberlain's Colic and Diarrhoea Remedy should always be on hand. (Advertisement.)

TO REORGANIZE OUR ARMY UNIT

Divisions to be Reduced for Service Abroad.

Will be Made to Conform to Entente Regulations.

No Cavalry is Provided in the New Formation.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 7.—A reorganization of American army units, under which the division totaling 28,000 men, found unwieldy for service on European battlefields, is abandoned for the continental unit of about 15,000 men, has been ordered by the War Department.

Under the new plan a division will include only two infantry brigades of two regiments each, in place of three brigades of three regiments each under the old system. Many other organization changes are made, including a material increase in the artillery and machine-gun strength of each division. The cavalry regiments included in each division are detached, a new trench mortar battery is added, and the old army corps plan, abandoned after the Civil War, is again put in operation.

The sixteen divisions of the National Guard as now constituted will be reorganized into four divisions, with a new plan after the guardsmen reach their training camps.

OFFICIAL STATEMENT. The War Department order was announced in a statement issued by the Public Information Committee tonight as follows:

"A general order made public by the Adjutant-General's office today provides for important changes in the organization of the army."

"The ratio of artillery strength to the infantry is generally increased. A division will hereafter include only four infantry regiments in two brigades in place of the old division of three brigades, each comprising three regiments of infantry. There still will be three regiments of field artillery in each division. Thus in the new organization there will be three regiments of field artillery instead of the ratio of three to nine. In addition, a trench mortar battery is attached to each division."

"The machine-gun arm is also materially enlarged. A machine-gun battalion of four companies has been made a unit of each division, in addition to the three machine-gun companies included in each regiment."

CONFORM TO ENTENTE. "The American division will be made by this order to conform practically to the units utilized by the Entente Allies, among whom a division numbers approximately 15,000 men. The reason for the change is that the division as heretofore made up of about 28,000 men is too unwieldy for the demands of trench warfare. With so large a unit sure and swift communication with all parts is difficult. The problem to be solved is to provide a unit of mobility for the peculiar needs of fighting on the western front."

"The smaller-sized divisions call for maintenance of all units at fighting strength. For this purpose reserve battalions will be provided. These will consist of 512 men each, and are listed in general order as 'separate training battalions.' The number of these battalions has not been made public. Details of regimental organization are also withheld for military reasons."

"The new order provides for army corps and army units which have practically existed only on paper since the Civil War. Corps were organized during the Spanish War, but were not actually operated as such to any great extent."

THE ARMY CORPS. "Each army corps will consist of three infantry divisions, corps headquarters and certain army corps troops not specified. Details of the organization of the corps will normally consist of three or more army corps, army headquarters and certain army troops not specified."

By the City Directory (1917)—260,000

OVER FOUR THOUSAND HAVE BEEN EXAMINED.

Exactly What the Draft Figures Mean in Southern California.

LAST NIGHT the military board of draft registration in this city, which is covering the operation of every draft board in the Southern California district, took the first step in the examination of the draft figures. The board, which is composed of representatives of the military, naval, and air forces, and of the local community, met at the city hall and examined the first of the 4,000 men who have been called for examination. The board is now examining the draft figures for the entire Southern California district, and is expected to complete its work by the end of the month. The board is now examining the draft figures for the entire Southern California district, and is expected to complete its work by the end of the month. The board is now examining the draft figures for the entire Southern California district, and is expected to complete its work by the end of the month.

Where They Can Give Some of Us Points on Patriotism.

In Los Angeles City Exemption Board No. 16.

At the top are representatives of a few of the nationalities in this "melting pot of Los Angeles." Reading from left to right are Lee Ting, Chinese interpreter; Henry D. King, negro youth; Karapet Ognassoff, Armenian subject; George R. Ohashi, Japanese interpreter; K. Takekuma, Japanese subject. Below is the Exemption Board of District No. 16. From left to right seated are R. D. Adkins, chairman; W. F. Hufford, R. P. Benton; Dr. H. E. Southworth, standing. For two days this district has maintained the lowest percentage of exemptions asked—42 per cent on each day.

EXTRAORDINARY EFFORTS TO DODGE THE DRAFT?

Exemption Boards will Take Official Cognizance of Subterfuges.

THE number of men asking for exemption in Pasadena and elsewhere and the stories of subterfuges practiced to avoid passing the physical test are somewhat disconcerting to the members of some local exemption boards. At the conclusion of yesterday's examinations at the Crown City the announcement was made that 300 more men will be called for examination today and a further call may be necessary.

A member of the board in Pasadena District No. 1 yesterday received a report that a young man, a member of a prominent family, systematically harassed himself for six weeks so as to be under weight. The young man in question failed to qualify because he was fifteen pounds too light. It is said that the young man is weak from lack of nourishment and that his health may have been impaired permanently as a result of his method of avoiding military service.

It is said that another young man who failed to pass because of weak eyes spent at least a night previous to his examination in reading fine print, with the result that his eyes were badly bloodshot at the time he appeared at the board's office. Official notice will be taken of subterfuges of this nature.

Three men out of twenty-seven called for examination yesterday in District No. 2 did not ask for exemption. Fourteen passed the physical examination.

WARNING LETTER.

The following letter was sent to Los Angeles city Board No. 17 yesterday as a warning to the board that the man would claim exemption. He did, on two grounds, first that he had a child to support and second that he was supporting a widowed mother. This is the letter signed by the man's brother-in-law:

"He is married and has a wife and one kid but he is not any good for his family at all because he does not work at a plant now. He has no other mother takes care of him and his wife as if he was a baby. Now I know that he will lie to you so please don't let him get away."

While one such case has been reported, a canvass of the physicians comprising the examining board of No. 17 fails to substantiate, in so far as this board's experience goes so far, the rumors that many young men are having teeth pulled and otherwise defacing their bodies in the hope of evading the draft. Dr. Cooke, who inspected the final examination, yesterday stated that he saw absolutely no evidence of attempts on the part of the men who came before him to avoid service. On the other hand, many who found themselves disqualified expressed the

Coulter Dry Goods Co.
FOUNDED IN 1878

REMOVAL SALE

Anticipating Change of Location to
Seventh Street at Olive

The Best in Dry Goods Since 1878

We Offer in This Sale Nothing But Our Own First-Class Dependable Merchandise And Odds and Ends Brought Out by Inventory Taking

\$35 Wool Jersey Suits, now \$26⁷⁵

Wool jersey—the ideal material for outing or traveling garments, because it wears well, sheds dust easily and is cool. Here are the best qualities, which will be as good next fall as they are now—stylishly made and beautifully tailored—at a reduction of one-fourth from the prices we marked them originally.

Shown in rose, gold, green and purple—summer's most fashionable shades, which promise renewed favor for autumn, also; were \$35.00; now \$26.75

Paradise-Trimmed Hats at Lower Prices Than You'd Expect

We have a number of very charming large picture hats of hatters' plush and velvet; medium-sized and smaller shapes, too, in alluring contours, which have been gracefully trimmed with beautiful Paradise.

Inasmuch as we are selling all Paradise (in colors, black, white and natural) at half price, these exquisite trimmed hats may be purchased at a great deal less than they would ordinarily be marked.

\$30 Black Silk Suits, Now \$20⁰⁰

A silk suit is a woman's stand-by for almost any occasion. It is good enough to wear to matinee or garden fete, and not too good for traveling or business purposes.

And of all practical silk suits, a black one is the best. These in belted or plain models of the choicest character, are scheduled to be sold at a great deal less than they were intended to bring, because we have left in stock only black; models that were \$30 to \$72.50, all share in the price-cut—now \$20 to \$48.75

\$7.50 to \$22.50 Parasols at 1/2

Few women, in these warmer days, care to venture forth without the protection a good sunshade lends from the sun's too ardent rays.

This sale makes it possible to buy the most becoming shades and shapes away under worth—stripes, plaids, black-and-white effects, and combinations of several colors that will harmonize with any costume; choice at Half

PIONEER GOLFER DIES.

Son of Pioneer Physician and Nephew of Former Massachusetts Governor Laid Out Pasadena's First Golf Course—The Widow is Left Behind.

Elliot Worcester Field, sometimes called the "daddy of the Southern California golfer," died early yesterday morning at his home, No. 278 South Colorado street, aged 56 years. As a young man Mr. Field laid out the first golf course at Pasadena, and was long the Southland's most ardent advocate of the game.

Mr. Field was the son of Dr. Henry Martin Field, a pioneer Pasadena physician. He had lived a retired life for many years. The only near relative is the widow. Former Gov. John Quincy Adams Brackett of Massachusetts is an uncle of the dead man.

The funeral services will be conducted at 2 p.m. tomorrow at Breeser Bros. Burial will be in Inglewood Cemetery.

TO ACT ON TUNNEL.

It is expected that the City Council this morning will abandon previous proceedings on the Second-street tunnel project and immediately thereafter adopt an ordinance of ratification in conformity with the amendment to the 1912 act.

HURRAH! REAL SWIMMIN' NOW.

Playground Departments Open Sure-enough "Hole" in the River Bed.

That banking for the good, old-fashioned swimmin' hole that father used to know is to be satisfied. Today in the river bed, where the Arroyo Seco joins the Los Angeles River, the playground department is going to offer real soft water swimming to those that like it.

The pool is 400 feet long, fifty feet wide, and varies in depth from one to twenty feet. An expert swimmer and life guard is to be present all the time to lend assistance in case of need. The schedule of hours is 9:30 a.m. to noon and 1 to 5:30 p.m., week days, and 1 to 5:30 p.m., Sundays.

Deeper.

CONTEMPT ACTION MORE EMBRACING.

ANONYMOUS WRITER SENDS A LETTER TO COURT.

Signs Himself "A Voter," Urges Action Against Editor of the "Record"—Author, if Found, Will Be Haled Before Bar to Explain Alleged Interference.

A misadvised person who signs himself "A Voter," is the subject of a Federal investigation for the discovery of his identity. Last Monday, he wrote a letter and mailed it to Presiding Judge Finlayson. The misadvised person, however, will be haled before the court.

The letter follows: "Judge Finlayson: Do not let this editor of Record get away with this. If you do not punish this Socialist he will menace every judge and jury that he will take a dislike to. He has made the remark that there was not a judge that dared to sentence him. Now Judge do you duty."

(Signed) "A VOTER." Judge Finlayson called before him District Attorney Woolwine, Deputy District Attorney Doran and Oscar Lawler, the last named acting as attorney for Dana Sleeth, editor of the Record. In the contempt proceedings against Mr. Sleeth, based on certain editorials attacking courts and justice and Judge Woolwine personally, Judge Finlayson read the letter to the legal representatives and referred it to Mr. Woolwine for investigation.

Mr. Woolwine laid the matter before the postoffice inspectors.

Rough.

BITES WARNING FINGER?

Charge of Mayhem Laid Against Man Who is Alleged to have Taken Caveman Part in Quarrel with Woman—Exhibits Injured Digit.

Mrs. Lena Laventhal denied a charge made against her by Phillip Deloit, during a quarrel July 12, and shook her finger in his face. While the shaking process was in order, it is alleged that Deloit became immoderate with caveman tendencies and grabbed the finger between his teeth. As a result, he was arraigned before Justice Hanby Monday on a charge of mayhem and was held to answer before the Superior Court.

According to the testimony, Mr. Deloit accused Mrs. Laventhal of making improper proposals to his wife and protested. During a quarrel at an apartment-house at No. 850 North Hill street, where Mrs. Laventhal is landlady, the biting took place. It is alleged that Mrs. Laventhal, who was in court during the preliminary hearing, exhibited her lacerated finger as evidence.

WHO'S WHO DECIDED.

Supervisors Settle Moot Question of Responsibility for Psychopathic Ward Patients by Appointing Separate Duties to Three Men.

A moot question involving the long-debated problem of just who is responsible for the handling of patients in the psychopathic ward of the County Hospital was settled yesterday by the Board of Supervisors. It was decided that the hospital should furnish the nurses and compensate them for taking patients to trains, the superintendent of the hospital shall supply the ambulances at the expense of the sheriff's office. The admission of patients and the disposition will be the particular duty of the judge of the Juvenile Court. Their detention by the Sheriff and the executive management, control and direction is vested in the superintendent.

BOULEVARD BRANCH.

The Board of Public Works is to be instructed by the City Council, as determined upon in its committee of the whole meeting yesterday, to advertise for bids for the construction of a boulevard branch from the Mission road crossing at Rose Hill to the overhead bridge west of Bairdstown. The Council is also to pass upon these bids when they are received by the board. It is intended to carry the subway under the railroad tracks to a point where they will connect with the boulevard, thus providing for safety for school children. This additional work is estimated to cost approximately \$46,000, and will be borne equally by the city and the Pacific Electric Company.

JENNY BEYOND.

Mrs. Mamie Lee, who was fortunate enough to escape from a divorce court in Los Angeles, was found of divorce by the court in the case of her husband, B. E. Lee, who with his parents was in the city when she was found of divorce. Mrs. Lee's husband was found of divorce by the court in the case of her husband, B. E. Lee, who with his parents was in the city when she was found of divorce.

News from

WON'T INSPECT WOMEN MODELS

Ministers Decline Request to Act as Censors.

Bathing-suit Parade Still a Subject of Dispute.

Well-known Long Beach Man Becomes Benedict.

Local Correspondence

LONG BEACH, Aug. 7.—Local correspondents today refused to act as censors of bathing suits on models at proposed parade here next Sunday.

Fred Dunn, president of the Pike Association, which is promoting the parade, today invited the members of the Long Beach Ministerial Association to come to the beach and inspect a number of prospective entrants in the parade.

Although the members of the Ministerial Association in session today afternoon to consider what action to take in the matter, individual members expressed themselves as opposed to the parade and the association postponed action in the hope that the Pike Association itself would call off the dogs.

The Ministerial Association refused to take action upon an invitation from the Pike Association to appoint a committee of clergymen to investigate the conditions of the proposed parade and eliminate any objectionable features that might be found.

Fred Dunn, representing the Pike Association, announced that he would submit the proposition to the members of the Chamber of Commerce Thursday and the Merchants' Association Friday.

It was stated that the parade will be held on Sunday.

ATHLETE MARRIED.

William "Curry" Curry, well-known Long Beach prep football athlete, was married yesterday.

The bride is Helen Deane, daughter of the late William Deane, and four years ago was a member of the All-Southern football team.

The romance had its inception during the high school days of the athlete, when Curry was the idol of the Long Beach Poly High eleven.

Curry made a marriage trip to the University of Southern California, where he was a member of the football team.

Curry was being courted by a young woman from the University of California, who was a member of the football team.

Business Page: Money, Stocks and Bonds—Grain—Mines—Financial Market Abroad

WALL STREET PRICES HAVE UNSETTLED DAY.

Intimations Current that Several of Leading Industrial Companies may Find it Necessary to Engage in New Financing—Reports of Government Insistence that Figures Given Allies on War Supplies Must be Cut.

NEW YORK, Aug. 7.—Intimations that several of the leading industrial companies may find it necessary to engage in new financing, announcement of the reduction of the Studebaker quarterly dividend from 2 1/2 to 1 percent, and the reported insistence of the administration that war prices to the Allies must undergo radical downward revision were responsible for the unsettled movement of the stock market today. The market was characterized by a general decline in prices, with the exception of a few stocks which advanced.

Standard stocks were relegated to minor positions until the final hour when investment rails, marines and American International Corporation developed sudden activity and strength, gaining 1 to 2 points. Utilities, such as Brooklyn Rapid Transit, Consolidated Gas and American Telephone averaged 1-point gains, offset, however, by 1 to 2-point declines in Ohio Gas, Western Union and Public Service of New Jersey.

Light concessions ruled in high-grade domestic and international bonds. The Liberty issue ranged from 96 1/2 to the new minimum of 96 1/4. Total sales, par value, aggregated \$2,740,000.

United States bonds, old, were unchanged on call.

REACTION IN CORN SENDS PRICES UP.

RURAL OFFERINGS ARE NOT AS LARGE AS EXPECTED.

Downward Tendency Due to Drenching Rains is Checked. Complaints of Dry-weather Damage in Canada. Little Wheat Values. Oats Relatively Easy.

CHICAGO, Aug. 7.—Although generous rains that promised to enlarge the yield of corn had a bearish influence for a while, the price of that cereal, the fact that rural offerings were not large and that no big movement soon was expected led afterward to a reaction. The market closed steady at 1 1/2 to 1 3/4, and with December at 1 1/4 and May 1 1/2 to 1 3/4. Wheat gained 1/4 and closed steady at 2 1/2 to 2 3/4. Oats finished unchanged at 1 1/4 to 1 1/2, and provisionally at 1 1/4 to 1 1/2. Corn, however, showed a decided downward tendency, owing to the emphasis which drenching rains had placed on the outlook for the season's crop. Oats were current at 1 1/4 to 1 1/2, and provisionally at 1 1/4 to 1 1/2. Corn, however, showed a decided downward tendency, owing to the emphasis which drenching rains had placed on the outlook for the season's crop.

CITY CAN'T PAY ITS PATRIOTS.

No Extra Wage for Soldiers in Regular Army

Who Formerly Were Employees of Municipality.

May Assist Them Only During Emergency Service.

The policy adopted by the city's various departments of providing for the payment of the difference between salaries of employees and their government pay when they take up regular army service, received a body blow yesterday. City Attorney Stephens issued a report that declared this cannot be legally done except in the case of temporary service.

He says such a course would be permissible in cases where men go into the training camps, which may be considered as of an emergency character, but that it would not apply to regular war service.

"I did not know until a day or two ago, from conversation with Capt. Powell of the National Guard, and with Mr. Haskins, who is a member of the city's office, that it was understood in any department that the opinion of July 27, 1916, justified the payment by the city to any employees of the city who had joined the military preparation of the nation for participation in the great war, and therefore for an indefinite period. It, of course, could not be considered that the prosecution of the war with Germany is an emergency of temporary character, in which it is intended that National Guard, as such, should participate."

"I understand that the city was paying the difference between that received from the government and the amount of the city salary of any employee attending the training camps and prior to their acceptance of the individual by the government."

"I cannot find any hint of authority for going further than that but find much authority the other way. Certainly there is no authority for paying two salaries, or one and any portion of another while the ordinance provides for but one position. Neither is there any authority for providing for employees for one position, one of which shall perform the duties of the position while the other one is engaged in the service of the government."

"The auditor is liable personally for any illegal payment from city funds. I am not privileged to pass over the plain dictum and reason of the law, no matter how patriotic or just the act in question would be. The tax money of the city are not raised to be expended directly or indirectly in the military establishment of the nation. To so expend them is illegal."

"I orally advised Capt. Powell along the line of this opinion last Saturday, before the meeting in order that city employees should not depend on extra compensation from the city. I am fearful, however, that other departments, acting on the assurance that the city would continue a part of their salaries, have joined other fighting units. If so, this is to be regretted."

Conclusion.

SHADOW OF CROSS CRUSHES A THIEF.

UNKNOWNLY HE WOULD ROB CATHOLIC SISTER.

Later Realizes He Committed a Sacrilege, a Crime Against His Own Precious Faith, and Now the Sentence of a More Human Judge Counts Not.

No earthly judge ever will hear a sentence more deeply into the heart of Andrew Garcia than his own conscience; which is his religion. Yesterday morning he unknowingly committed sacrilege, and his soul is heavier than any jail term could make it.

While ransacking an apartment of one of the Sisters of St. Francis, at No. 1238 Santee street, Garcia was arrested by Detectives Houston and Pruitt. All his life Garcia has considered himself, when he met with reverses, with his faith in the cross and the Man who died upon it. He did not know, yesterday morning, until he was being led away from the building, that he had committed a crime against his faith and when he discovered his sacrilege his legs crumpled beneath him, and he slumped from a stolen burglar, into a man who was under a sentence heavier than any human court can impose.

As Garcia, hand-cuffed, walked down the cement walk to the waiting automobile the early morning sun threw the shadow of the cross upon the pavement before the prisoner. Then came his metamorphosis.

He sits today in his cell, awaiting trial on a charge before a human judge, but he is indifferent, for he has been tried before his own conscience, his religion, and he has been condemned.

Milly Getaway.

JUMPS FROM JAIL.

Woman Prisoner Uses Matron's Keys to Unlock Cell Door, Walks Out on Fire Escape, Drops Onto Roof of the Receiving Hospital and Flees.

Etta Lewis, colored, recently convicted of vagrancy by the first jury of women in Los Angeles and sentenced to serve fifty days in jail by Police Judge Fredericksen, yesterday secured the keys of Police Matron Wells, unlocked the huge steel doors of the woman's ward and slipped to the roof of the Receiving Hospital. The escape was unnoticed until Policewoman Robinson went to the matron's ward to talk to the prisoner. The escape, in some manner, gaining possession of the keys to the doors of the ward, let herself out on a fire escape, dropped to the roof of the Receiving Hospital, broke a skylight and escaped through an adjacent rooming-house.

The Public Service.

At the City Hall.

WILL READJUST THE LABOR BUREAU.

AUTHORIZED ORDINANCE WILL CENTRALIZE POWER.

Council as a Committee of the Whole Meets Representatives of Various Commissions. Who Argue in Favor of Proposed Law, and Then Recommends it Pass.

The municipal employment bureau will be under a new regime as soon as the necessary ordinance can be adopted and the required number of days are passed. Under this ordinance the various departments are specifically provided for, chief clerks for each are arranged for, and there is to be a general superintendent, to which each of these clerks shall be responsible. Centralization of authority is the motif of the new law.

The hearing before the committee of the whole yesterday brought out an attendance of people representing various commissions, and they all spoke in favor of the proposed ordinance, and set forth the excellent work that has been accomplished by the bureau but urged that it can be made far more efficient by the changes proposed.

Ben Pearson, who is a member of the Industrial Commission, presented a report showing that since the opening of the bureau in January of 1914 it has placed 14,175 people in positions, at a cost of \$57,377.18, whereas the cost through private agencies is \$100,000.

There was a general discussion of labor conditions, and it was shown that, while there is a crying demand for men to work on ranches, many of the unemployed will not go out of the city for positions.

The proposed ordinance will increase the cost of the department \$360 a year.

City Hall Notes.

The Council committee of the whole has set a hearing on the petition of the United Improvement Association in regard to dividing the city into fifteen council districts for two o'clock next Tuesday.

All department heads of the city government have been notified that they must place in the Council's hands by next Monday morning full reports of the number of men.

Accretions.

CITY BUYING WATER.

Two More Private Systems will be Formally Taken Over as Soon as Papers are Prepared.

Best Growers will Go Dry for a Time.

Action taken by the Public Service Commission yesterday afternoon provides for two more private water systems coming under the control of the city water department. Authorization was given to Acting President Kenbrecher and Secretary Vrooman to sign the contract for the purchase of the Colegrove water system for \$2400 and to obtain the necessary permission for this transfer from the State Railroad Commission.

As a matter of fact, the city is now in control of this system, pending the carrying out of the legal steps. The city water was diverted into the Colegrove mains last Saturday.

An offer from C. G. Smith to turn over to the city, without compensation, the water system in the DuRay Place tract was accepted, and city water will at once be conveyed there.

Chief Engineer Mulholland has issued orders that beet raisers and growers of field crops in San Fernando Valley must refrain from using water for irrigation until the owners of citrus and other groves needing irrigation have had service on these lands, as some of the groves have suffered during the temporary suspension of water while breaks in the aqueduct were being repaired. Within two or three days there will be an abundance of water for all kinds of irrigation, as 11,000 inches is running into the San Fernando reservoir.

UNPROFITABLE TASK.

Man Caught on Roof is Now Awaiting Trial.

Barefooted, Oscar Biglow sought "mipes" yesterday morning. Today he is awaiting trial on a charge of suspicion of burglary. He was arrested by Detectives James and Barr of the Flying Squad and Officer Austin as he walked upon the roof of a cleaning establishment at No. 1238 San Julian street.

Manager Lundie of the cleaning house, and his chauffeur, A. C. Baker, heard the man who had recently stolen several suits of clothing from the shop was again about to burglarize the cleaning house. They watched and gave an alarm when Biglow was seen near a skylight.

DEATH ROBS THEM OF INHERITANCE.

MONEY IS FOR LIFETIME ONLY. WOMAN'S WILL SAYS.

Writes Testament Leaving Sums to Brother and Sisters for Terms of Their Natural Lives, then Survives Them—Their Children Get Nothing, Judge Rules.

An unusual angle involving the estate of Mrs. Sarah C. Rounds, who died December 1, 1915, leaving property valued at \$11,300, developed in connection with the probate of the will. She provided in her will that \$500 be given to each of her sisters and to her brother during their life. The will was filed for probate unchanged.

The children of Mr. Edwards petitioned the Probate Court for a partial distribution of the legacy. The petition was opposed and the matter came before Judge Rivers for a decision. It developed that the children of the sisters and brother had been provided for by the will, but it was contended that the legacies to Mrs. Barbour and Mr. Edwards terminated at their death and did not pass on to the children.

Judge Rivers decided that the legacies did not survive Mrs. Barbour and Mr. Edwards and that the children take nothing.

INCORPORATIONS. The Haskins Excavator Company No. 1, Incorporated, A. J. Haskins, Myrtle Key and H. D. Haskins, capital stock \$10,000, subscribed \$3. The Angeles Clinic, Inc., incorporated W. G. Thurner, L. J. Thurner, D. P. Hatch, E. J. Denison and C. P. Rankin; capital stock, \$20,000; subscribed \$50.

All's Well.

THEY'RE WEDDED NOW.

Telephonic Efforts to Prevent Issuance of Marriage License Prove Unavailing and Ceremony for Aged Couple is Performed by Judge.

Alfred S. Cook, aged 70, and Mrs. Bertha Arnet, aged 44, desired to wed, and application for the license was made to "Cupid" Sparks yesterday. But there were telephonic protests. Unidentified persons called upon the marriage-license bureau and declared that Mrs. Arnet should not marry because a petition had been filed in the Superior Court for the appointment of a guardian over her property.

The protests were unavailing. Mr. Sparks consulted with County Clerk Leland, and it was decided that Mrs. Arnet was in a position to wed if she so desired.

The license was duly issued, and a short time later the ceremony was performed by Judge Crawford at his home.

IN FIRE CHIEF'S CASE.

Grand Jury is Expected to Make Report Today on Investigation.

Without completing the investigation brought about by the alleged illegal actions of Fire Chief Eley, the county grand jury adjourned yesterday afternoon to reconvene at 10 o'clock this morning to complete the hearing. It is probable that a report will be made before night in the case.

Chief Eley is alleged to have misappropriated a fund of \$500 in interest on the fund was for a fireman, John O'Neill, who was ill and who has since died. Other alleged irregularities in the handling of the grand jury's searchlight, it is claimed.

LONG BEACH DEFENDANT.

Another damage suit against the city of Long Beach was filed in the Superior Court yesterday. It was filed by Roger Bertha A. Williams, guardian of Roger Williams, a 13-year-old boy. Damage in the sum of \$10,000 are asked. It is charged in the complaint that the boy was a victim of the Empire Day pier disaster, May 24, 1915, in which a number of lives were lost and many persons were injured. Attorney T. Williams represents the defendant.

Manager Lundie of the cleaning house, and his chauffeur, A. C. Baker, heard the man who had recently stolen several suits of clothing from the shop was again about to burglarize the cleaning house. They watched and gave an alarm when Biglow was seen near a skylight.

Man Caught on Roof is Now Awaiting Trial.

Barefooted, Oscar Biglow sought "mipes" yesterday morning. Today he is awaiting trial on a charge of suspicion of burglary. He was arrested by Detectives James and Barr of the Flying Squad and Officer Austin as he walked upon the roof of a cleaning establishment at No. 1238 San Julian street.

LYONS STILL IN THE WOOD.

Registrar Wins Salary Suit, but Law is Hazy.

Court Itself Urges that an Appeal be Taken.

David B. Lyons won his contention before Judge Finlayson yesterday that, being the incumbent of the office of Registrar of Voters, he is entitled to his salary, which has been held up by litigation. But, though he won his battle, another looms up in the office because George Crier, attorney for R. P. Benton, a taxpayer, who sought to have County Treasurer Hunt restrained from paying Mr. Lyons the salary, will appeal from Judge Wellborn's judgment.

Mr. Benton contends that Mr. Lyons, by absconding with himself from the State without permission of the Board of Supervisors, caused the office of Registrar to be vacant. Mr. Lyons claims that armed guards prevented him from taking possession of the office. The case argued: what is an incumbent?

Judge Wellborn denied the injunction sought, dissolved the temporary restraining order and gave judgment in favor of Mr. Lyons. The latter was represented by George Crier, Deputy County Counsel Murphy acted for County Treasurer Hunt.

The court recommended that an appeal be taken, inasmuch as the law was doubtful. Final decisions favor Mr. Lyons, but later cases are said to be the other way. An incumbent of an office, the law is declared to hold, is one who not only holds legal title, but is in actual possession of the office.

Mr. Lyons intervened in the suit and asked for a writ of mandate. The court ordered the writ to issue, but held up the order until notice of appeal from the judgment was filed.

TWO ARE BANKRUPT.

Physician's Assets are Made Up Mostly of Bad Debts.

Dr. J. M. Steade of San Diego filed a petition in bankruptcy in the United States District Court, yesterday. His debts are scheduled at \$19,216.50, all unsecured, consisting for the most part of judgments secured against the petitioner. The assets are given as \$5666.62, of which \$1814.42 is claimed to be due on open book account. Accompanying the petition is an exhibit of a score of pages of names of persons who owe Dr. Steade sums varying from \$1 to \$60 for services performed in the practice of his profession.

CASE CONTINUED.

The divorce suit of Mrs. Beattie B. Cook against W. M. Cook was not decided by Judge Wood yesterday, as he desired further evidence. Mrs. Cook testified with her five-year-old son standing by her in the witness box. She declared that she left her husband at first because of his treatment of her. Later she said she found evidence that he was flirting with another woman.
